EDUCATION

Bachelors in Computer Science, University of Sindh – Jamshoro, Sindh | Jan 2023 – Dec 2026 ***(Anticipated completion)***

Intermediate, Pre-medical, BISE Hyderabad | 2020 – 2021

CERTIFICATION

Certificate in Information Technology (CIT), SZABIST Hyderabad | 2019

SIGNATURE SKILLS

Cross-Platform Development

Mobile UI Architecture

Widget-Based Design

Responsive Layouts

State Management

Reusable Components

Component-Based Architecture

UI Prototyping (Figma)

Agile Development

Platform-Native Styling

LANGUAGES

English (Intermediate)

Urdu (Fluent)

Sindhi (Native)

CAREER SUMMARY

Innovative and detail-oriented Mobile App Developer with hands-on experience in building cross-platform applications using Flutter/Dart and React Native/JavaScript. Proven ability to design and implement scalable, responsive UI architectures using widget-based design, reusable components, and component-based frameworks. Strong grasp of mobile UI/UX principles, secure form handling, and state management. Demonstrated expertise in integrating Firebase Authentication, RESTful APIs, and platform-native styling to deliver intuitive, high-performance mobile solutions. Proficient in Agile development environments, UI prototyping with Figma, and version control with Git. Committed to clean code practices and continuous learning to drive user-centric mobile innovations.

TECHNICAL SKILLS

- Mobile App Development: UI/UX Prototyping, Responsive Design
- Software: Visual Studio Code, Android Studio (basic exposure)
- Languages & Tools: HTML, CSS, Figma
- Other: Git & GitHub (basic version control).

PROJECTS EXPERIENCE

Self-Employed
Mobile App Developer ● Jan 2025 – Present

- Implemented authentication modules including user login, registration, and password recovery screens using secure input handling, form validation, and mobile UI best practices.
- Recreated core WhatsApp interface components, such as chat list, conversation view, and status updates, using modular widget-based architecture to demonstrate UI consistency and scalable design.
- Designed and developed portfolio card components to showcase user profiles, leveraging dynamic layouts, reusable components, and platform-native styling across screen sizes.
- Applied component-based development and followed MVC/MVVM architecture patterns to maintain clean codebase and optimize reusability across multiple screens.
- Utilized tools such as Figma for UI prototyping and Git for version control; followed agile workflows and collaborated via tools like Jira/Trello during project iterations.

Tech Stack: Flutter / Dart or React Native / JavaScript (adjust to your actual stack), Firebase Authentication, Git, REST APIs, Figma
